About

Internet Systems student combining hands-on software development skills with solid experience in frontline customer support, technical troubleshooting, and documentation. Proven ability to handle customer inquiries, maintain high data integrity, and resolve complex technical issues through clear communication. Currently enhancing enterprise software knowledge via the SAP Digitalization Portfolio Program and full-stack architecture through the Eldorado Institute Residency. Advanced English speaker, customer-centric, and eager to leverage full-stack engineering, service operations, and AI-assisted productivity tools.

Education

Internet Systems Technology - IFRS (Dec 2030)

High School - IT Technician in Informatics for Internet - IFSUL (2018-2022)

Professional Experience & Programs

SAP Digitalization Portfolio Program | Jun 2026 - Present

- Expanding practical knowledge in enterprise software solutions, cloud digitalization, and SAP business ecosystem.
- Engaging in cross-functional technical mentorships and collaborative industry workshops with global SAP leaders.

Instituto Eldorado & Petrobras - Full-Stack Residency 5.0 | Jun 2026 - Present

- Selected for a competitive 7-month immersive software engineering program focused on modern architectures, cloud concepts, and REST APIs.
- Apply full-stack development best practices to build scalable web applications in an agile, collaborative environment.

Research Fellow (CNPq) - Software Development | March 2024 - August 2024

- Developed custom Moodle plugins (PHP/MySQL) and engineered data visualization dashboards for performance metrics.
- Identified the cause of technical issues, debugged system errors, and helped ensure platform stability.

Klassmatt - Language Cataloger | 2022 - 2024

- Analyzed technical documentation and large enterprise supply chain datasets to resolve system-level data inconsistencies.
- Created and maintained internal knowledge repositories, ensuring product information was accurate, standardized, and accessible for stakeholders.

Caixa Econômica Federal - Business Apprentice | 2021 - 2022

- Delivered frontline customer support and technical guidance, developing empathy, active listening, and problem-solving skills in a fast-paced environment.
 - Communicated directly with stakeholders to resolve operational demands and maintain workflow efficiency.
-

Academic Projects

Help Autismo - Final Project: Full-stack web app designed for school inclusion of children with autism. Applied creative thinking to build the database architecture. (HTML, CSS, JS, Bootstrap, PHP, MySQL, Git).

Scam Message Detector - Full-Stack Residency: Pure Java application for fraud detection. Engineered business logic to identify suspicious links, urgency patterns, and sensitive data requests (PIX, CPF, credit cards). (Java, MVC, Git).

Skills

Core & Technical: Technical Support, Stakeholder Communication, Problem-Solving, Data Integrity, Attention to Detail, Customer Focus. SQL, Java, PHP, JavaScript, HTML/CSS, Git/GitHub, Agile Methodologies, AI-Assisted Tools, Excel, Power BI (learning)

Languages: Portuguese (Native) | English (Advanced) | Spanish (Basic)
